

# COVIDSafe Workplace: Community Sport

This visual guide is an overview of key restrictions and recommendations for your industry. Learn more at [coronavirus.vic.gov.au/business](https://coronavirus.vic.gov.au/business)

**Display signage at each public entry to each indoor and outdoor space and points of sale, that meets current signage requirements**

**Use the Victorian Government QR Code Service to check-in workers, customers and visitors**

Victorians must check-in everywhere, every time no matter how long they are at the premises.

**Face mask requirements**

You must follow current face mask directions or other PPE guidelines for your industry.

**Assign a COVID Check-in Marshal**

**Regularly clean shared and public spaces with disinfectant**

Clean high-touch surfaces twice each day and clean shared equipment between uses.

**Observe density quotients and capacity limits**

**Creating workplace bubbles where possible**

Minimise the number of workers (including volunteers) interacting with each other by creating 'workforce bubbles' and reducing rotations, where practical.

**Recommend players maintain a physical distance of 1.5 metres from each other**

**Ensure hand sanitiser is available throughout the workplace (recommended)**

**Cleaning and disinfecting**

Display a cleaning schedule so it is easily accessible to worker. (recommended)
